## **Postdoctoral position in theoretical particle physics**

Chair of the Theory of Particle Physics and Elementary Interactions, University of Warsaw, invites applications for a postdoctoral position in theoretical particle physics and its interface with cosmology, starting in the fall of 2013. The appointment will be for 2 or 3 years and the position is funded by the National Science Centre „Maestro” grant „New theories of fundamental interactions and their cosmological tests and predictions” (DEC-2012/04/A/ST2/00099, led by prof. Zygmunt Lalak). The net salary is about 4100 pln per month, there is a possibility of renting university-supported accommodation at an affordable price, travel funds are available.

Research interests of the particle theory group in Warsaw cover a broad range of topics in particle physics, astro-particle physics and cosmology (electroweak breaking, theory of flavour, grand unification, supersymmetry, supergravity, inflation, dark matter).

Deadline for applications is **January 29th, 2013**. Applications should include CV, list of publications and a brief statement of research interests. Candidates should arrange for 3 letters of recommendation. Applications and recommendations should be sent by email to prof. Zygmunt Lalak [Zygmunt.Lalak@fuw.edu.pl](mailto:Zygmunt.Lalak@fuw.edu.pl).
